Innovation in Engineering

Progress Report 1

Goal: Reflect on your role within the team concerning:

a) What potential role and contribution would you like to experience and deliver to gain the most from the course?

b) How do you align yourself with and play into the team's expectations and performance?

Consider: Team communication, time management expectations, adjustment for the next time, Conflict Resolution, and Decision-Making.

Student name: Jiayue Che

Student nr.: s252639

a) Potential role and contribution:

As an introverted (I) INFJ, my role is to act as the team's empathetic connector and thoughtful planner. I want to step out of my comfort zone to share my creative ideas bravely and help collect everyone's thoughts into a clear direction. I contribute by ensuring a supportive and inclusive environment where all team members feel heard.

b) Aligning with team expectations and performance:

To ensure team expectations are met, I will actively challenge myself to communicate more openly and voice my opinions clearly while listening carefully to others. I like to plan things early and set clear steps so the team stays organized and ahead of schedule. If any disagreements pop up, I will step in to help mediate win-win solutions, viewing challenges as great chances to learn and improve our teamwork for next time. When making decisions, I balance practical details with team harmony to keep our creative process on track.
